**Dear Hiring Manager,**  
**Toul kok., Phnom Penh**

I am writing to express my interest in the Website & App Developer (Internship) position at Anakut Digital. With a strong academic background in Computer Science from the Royal University of Phnom Penh (RUPP) and practical IT training through the Pre University, Foundation, and Full Stack courses at (ISTAD), I am confident in my ability to contribute effectively to your team

At RUPP, I developed a solid foundation in computer science principles, including programming, algorithms, and systems design. My coursework has provided me with a deep understanding of various programming languages such as C/C++, Java, and Spring boot, while my studies at ISTAD have allowed me to apply this knowledge in full-stack web development, working with both front-end and back end technologies such as HTML, CSS, JavaScript, Node.js, react.js, next.js, TypeScript and databases like MySQL, PostgreSQL. I have experience in UX/UI design, focusing on creating user-friendly interfaces

Additionally, I have hands-on experience with Postman, which I use for API testing and ensuring smooth integration between different systems. This skill has allowed me to improve the efficiency and reliability of API-driven projects, making me well equipped to handle complex technical challenges.

I am particularly drawn to Anakut Digital because of its innovative work in [industry/technology], and I am eager to bring my diverse skill set and passion for development to your team. I am excited about the opportunity to contribute to your projects and to continue learning from experienced professionals in the field.

Thank you for considering my application. I look forward to the possibility of discussing this exciting opportunity with you. Please find my résumé attached for your reference

**Sincerely,**

**Kea Daron**

## CERTIFICATE OF COMPLETION

This is certified that

**Mr. KEA DARON**

has successfully completed the foundation training program of 3<sup>rd</sup> Generation of  
**"Web Development Fundamental"**

This 4 months of training course validates technical skills in web development such as  
UX/UI Design, ReactJS, Java Programming, Database Essentials, Version Control System,  
and Hands-on Project.

Date

Phnom Penh, March 22<sup>nd</sup> 2025

**CHEN PHIRUM**  
Director of ISTAD

## CERTIFICATE OF COMPLETION

This is certified that

**Mr. KEA DARON**

has successfully completed the professional training course of 1<sup>st</sup> Generation of  
**"Full Stack Web Development"**

This 6 months of training course validates technical skills in software development such as  
UX/UI Design, NextJS with TypeScript, Spring Framework, Data Modeling with PostgreSQL,  
Docker Deployment, SDLC, and Hands-on Project.✓

Date

Phnom Penh, October 31, 2025

**CHEN PHIRUM**  
Director of ISTAD
